OBJECTIVE

Enthusiastic Computer Science Engineering student with a passion for mobile app development. Intermediate in Flutter, Dart, and Firebase with hands-on experience building real-time, user-friendly applications. Skilled in HTML, CSS, and SQL for creating responsive web interfaces and managing structured data. Eager to contribute to innovative software projects and enhance my expertise in cross-platform mobile and full-stack development.

EDUCATION

Karpaga Vinayaga College B.E - Computer Science and Engineering, CGPA: 7.8
Government Boy's Higher Sec School - Computer Science, Grade: 73.1

Chennai, India
Sep 2023 - Present
Chennai, India
Jun 2022 - May 2023

SKILLS SUMMARY

- **Languages:** Java, Python, Dart
- **Frameworks & Tools:** Flutter, Android Studio
- **Databases:** MySQL
- **Others:** HTML, CSS, UI/UX, Git & GitHub

INTERNSHIP

Mobile app development | Femtosoft technologies

Jul 2025 - Aug 2025

- Gained practical experience in mobile app development with a focus on Android application design and functionality.
- Strengthened knowledge of UI/UX design principles, state management, and responsive layouts.
- Applied development skills to build modules such as authentication, attendance, notifications, and fee reminders.
- Improved problem-solving, coding standards, and teamwork abilities through real-world project tasks.

CI/ CD Pipeline for web app deployment | Internship studio

Jan 2025 - Feb 2025

- Built a CI/CD pipeline for web Application Deployment.
- Set up Jenkins to automate the build and deployment process.
- Pushed project files (HTML, CSS, and Pom.xml) to GITHUB for version control.
- deployed the final project to tomcat server for hosting and execution.

PROJECTS

Sign - in Page Form App | [VIEW](#)

Jul 2025 - Aug 2025

- Designed and implemented a user authentication system with secure login and registration.
- Focused on UI/UX design for a clean and responsive sign-in interface.
- Applied form validation techniques to ensure accuracy and security of user input.
- Strengthened understanding of frontend-backend integration in mobile apps.

Student App - Saffer School | [VIEW](#)

Aug 2025 - Sep 2025

- Designed a modern, user-centric UI for Anna University's STUCOR platform to enhance academic access and student experience. Focused on intuitive navigation, GPA/CGPA tools, study material hub, and personalized student dashboards. Tools used: Figma, Adobe XD. Emphasized accessibility, minimalism, and mobile-friendly responsive layouts. Collaborated with students and faculty; improved usability, engagement, and academic resource discoverability.

WORKSHOPS & CONFERENCES

ICCICT - 2k25

Paper Title: Enhancing Machine Learning Interpretability using X-Ai

Jan 2025

Cyber Security Workshop, VET Technologies

Deployed basic phishing and malware attacks by networking.

Oct 2024

NCAFME - 2023 *Secured 3rd Place*

Approached with our idea on improving interpretability using XAI

May 2023
